

# Real RUBBISH CHUTES

**CHUTES THAT DON'T BLOCK ARE HERE!**

Why tie up your hoist or site with rubbish, use these new  
**1 metre wide** chutes to quickly clear the waste.

Massive 1 metre Inlets come with safety signage for shutdown during bin removal

If these big chutes are outside your budget, we can still supply the traditional 0.5 metre wide chutes

Keep your install costs down, you can hang 45 metre from the one bracket

# CHUTE PRODUCTS FOR WASTE/ RUBBISH & MATERIAL FLOW

We stock a complete range of chutes from chutes that are flat (for storage) to special purpose moulded sections for high wear applications.
