

Material hoist

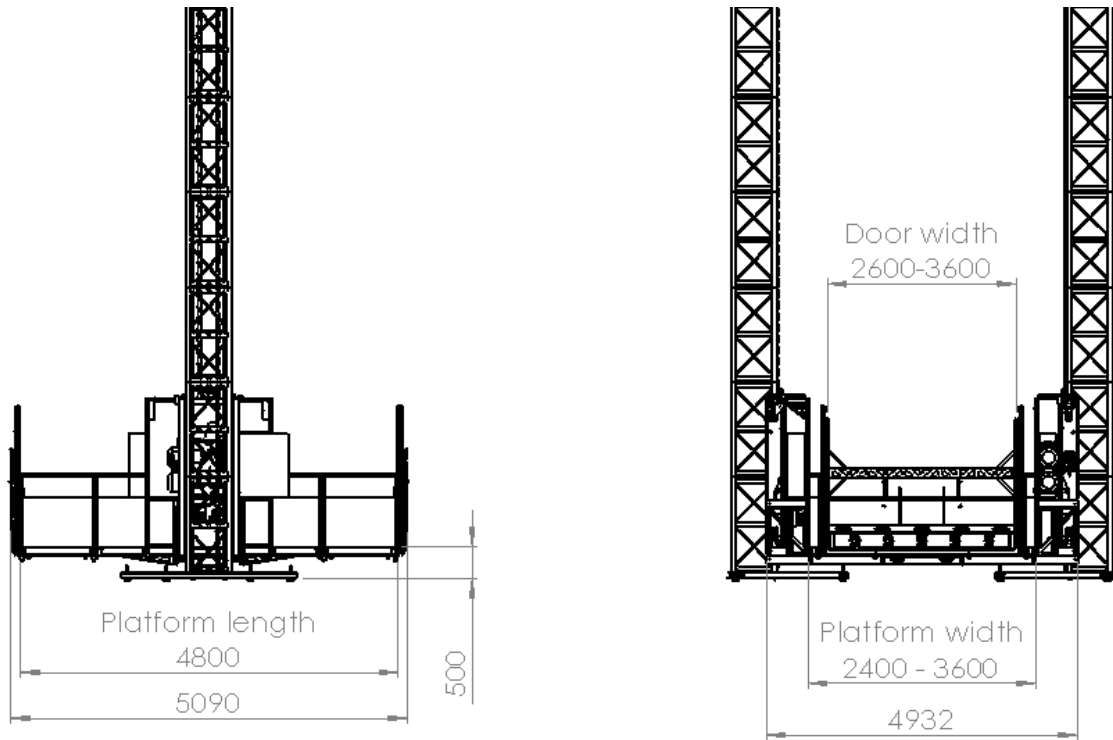

The material platform is able to transport material. The speed is 40 m/min and have a capacity up to 5000 kg.

Technical data

Maximum payload dual mast	5000 kg
Lifting speed material hoist	0-40 m/min
Width dimensions	2,4 – 3,6 m
Length dimensions	4,8 m
Power supply	415 V, 50 Hz, 160 A
Power consumption	90 kVA
Platform height to ground	500 mm
Ground footprint required	Max 6,4 x 5,4 m
